👤 Summary

Results-driven Front-End & Mobile Developer with experience in building scalable web and cross-platform mobile applications using **React and React Native**. Proficient in **JavaScript, TypeScript, Redux, REST API integration, and backend services with Firebase** (Firestore, Authentication, Push Notifications). Skilled in **React Navigation, modular component design, and UI/UX implementation** by translating Figma designs into responsive, user-centric interfaces. Experienced in **app optimization, debugging with Flipper and React Native Debugger, and deploying applications to Google Play and App Store**. Committed to **clean architecture, reusable code, and agile development practices** to deliver high-performance digital solutions.

🛠️ Technical Skills

- **Mobile Development:** React Native, JavaScript (ES6+), TypeScript, Redux, Redux Toolkit, Context API, React Navigation, Expo
- **Front-End Development:** React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design, Tailwind CSS.
- **Backend & APIs:** Axios, REST APIs, Firebase (Firestore, Authentication, Push Notifications)
- **Performance & Debugging:** React Native Debugger, Flipper, Profiling, App Optimization.
- **Version Control & Deployment:** Git, GitHub, Expo OTA Updates, Play Store and App Store publishing.

📁 Experience

Contact Financial | Trainee at React Native Developer

Cairo, Egypt (07/2025 – 08/2025)

- Develop and maintain cross-platform mobile applications using React Native and TypeScript.
- Build modular, reusable components that align with the design system.
- Integrate RESTful APIs and Firebase for real-time data handling.
- Optimize app performance and debug using React Native dev tools and profiling.
- Collaborate closely with designers to deliver polished UI/UX.

Media Zone | Trainee at Mobile Developer

Cairo, Egypt (08/2024 – 10/2024)

- Developed and deployed cross-platform applications.
- Designed intuitive UIs following the Material Design guidelines.

Freelancer | Front-end Web Developer

Cairo, Egypt (05/2023 – Present)

- Built responsive, high-performance web applications using React, JavaScript, and modern front-end tools, ensuring component reusability, state management, and seamless user experiences across devices.

Projects

- **Smart Home Mobile App:** Controls and monitors smart devices in real-time, integrating Firebase for data management and push notifications.
- **Wow Fashion Website:** Clean, responsive e-commerce site.
- **HABIB Website:** This website is responsible for showing Habib's works and who Habib is, and users can reserve workshops on this website by filling out a specific form.
- **Mental Math Website:** Developed an interactive website designed to enhance mental math skills through engaging quizzes and challenges, focused on ensuring accessibility for learners of all ages.
- **WAGBAT:** It is a mobile application that provides food services at New Cairo Technological University by using the students' university accounts.
- **CADI:** It is a website that offers information, reviews, and resources related to electronic devices such as computers, smartphones, laptops, and other technology gadgets. You can visit our website [here](#).

Certifications

- **React & React Native – Contact Financial**
- **JavaScript – Jonas.io (Udemy)**
- **ES6 – Jonas.io (Udemy)**
- **TypeScript – Jonas.io (Udemy)**
- **Front-End Developer (Orange)**

Education

New Cairo Technology University

Bachelor of Information and Communication Technology – Software Development Department

Graduation Year: 2025

Grade: Excellent

Languages

- **English (C1)**
- **Deutsch (A1)**
